## How to prepare for the day

Your candy cart is a centrepiece as well as a sweet station. A little styling prep goes a long way in photos.

## Safety information

Candy carts are heavy display units that may include glass jars and food allergens. Stable placement and food safety matter at weddings and family events.

### Essential safety rules

- Place on flat, stable ground. Chock wheels if on a slight slope.
- Be mindful of allergens if stocking sweets yourself. Label where possible.
- Keep out of direct midday sun if stocked with chocolate.
- Supervise young children around glass jars.
- Cover sweets if hiring overnight outdoors.

### Allergens and hygiene

- Many sweets contain nuts, gluten, dairy or gelatine.
- Provide allergen information to guests if you stock the cart.
- Use clean scoops and avoid cross-contamination between jars.
- Discard sweets that fall on the floor.

### Stability and access

Allow roughly 2m by 1m plus space for guests to queue safely. Do not let children climb on the cart.

## Weather policy and instructions

The candy cart is a display piece as much as a treat station. Sun, rain and wind affect both the cart finish and any sweets you stock - especially chocolate and wrapped items.

### Ideal conditions

Indoor weddings, halls and covered verandas are perfect. Outdoor garden parties work on flat, dry ground with the cart on a firm surface and wheels chocked if needed.

- Level ground - avoid slopes where the cart could roll
- Shade for stocked carts in summer
- Dry area away from sprinklers and pool splash zones
- Photo-friendly spot that still protects stock from weather

## Heat and sun

Direct sun melts chocolate, softens gummies and can fade packaging. Even short midday sun through a window can affect a fully stocked cart.

- Place in shade or under a marquee for outdoor events
- If you self-stock, choose heat-tolerant sweets for summer afternoons
- Cover jars and trays between photo sessions and serving waves

## Rain and overnight outdoor hire

Rain damages timber finish, labels and open displays. If your cart stays outdoors overnight, it must be under cover with sweets protected.

- Move the cart inside or into a garage if storms are forecast
- Use provided covers or cloths if supplied with your package
- Tell us if your venue has no covered storage - we can advise

## Wind

Strong gusts can catch signage, tip lightweight jars or blow wrappers off displays. A sheltered corner or marquee side wall reduces risk.

Contact us as early as possible when weather may affect your hire. Your booking confirmation includes phone and message details for the day. We prioritise safe use of equipment and fair solutions for Johannesburg, Sandton and Randburg events.
