Delivered, set up and collected for you. No cleaning required.

Welcome

On a hot day nothing beats an icy slush! Hire a slush machine and keep your guests cool and happy with colourful cups, cold straws and refills all afternoon long. Panda Party Hire offers slush machine hire across Johannesburg, Sandton, Randburg and nearby.

Summer birthdays, sports days, weddings and family get togethers are so much better when the slush is flowing. Slush machine hire means you do not have to buy, store or service a heavy commercial machine yourself.

We deliver, set up and collect. You do not need to scrub twin bowls or wash hundreds of cups when everyone has gone home. Our slush machines are well maintained, cleaned between hires, and arrive with mix, cups and straws in your package.

On delivery we test the slush machine on site with you and walk you through how it works. Our lovely team is on hand for any questions. If you can press a button and pull a handle, you can serve slush. Genuinely that easy.

You can trust us to arrive on time with everything working. Choose Slush Starter, Slush Party or Slush Big Bash below, or contact us for a quote. Here's to a cool happy party!

Hire packages

Choose the package that fits your guest numbers. All packages include delivery guidance, on-site test and tutorial, and collection when your hire ends.

- Cherry
- Blue raspberry
- Cola
- Grape
- Lemon
- Mango
- Strawberry
- Mixed fruit

Hire extras

Delivery and collection

Slush machines are always delivered and collected by our team.

Extra cups and straws

50 extra cups with straws for R 100.

Extra mix

10L extra ready mix bag for R 150.

How to prepare for the day

Slush machines are heavy and need time to freeze. A good setup spot makes all the difference on a hot day.

Strong sturdy table

The twin bowl machine is heavy when full. Use a solid table that does not wobble. A catering table or strong trestle is ideal.

Start freezing early

Allow 90 to 120 minutes after setup before serving. Switch on as soon as we leave so

slush is icy when guests arrive.

Shade in summer

Direct sun makes the machine work harder. A shaded patio or indoor spot keeps slush colder for longer.

Power point ready

Place the table within reach of a standard household plug. Avoid overloading one outlet with other appliances.

Flat level floor

The machine must sit level. Uneven ground can affect performance and cause spills.

Clear delivery access

We deliver and collect the slush machine for you. Ensure driveway or gate access for our team on arrival.

Why hire Slush Machine?

Beat the heat

Icy slush drinks are perfect for summer parties and outdoor events.

Multiple flavours

Choose syrups to suit your crowd - kids and adults love the variety.

Self-serve fun

Guests help themselves while you focus on hosting.

High throughput

Serve dozens of drinks quickly at sports days and school events.

Popular events

Summer birthday parties, School sports days, Corporate family days, Outdoor weddings, Teen parties, Community events, Pool parties, Festivals.

Delivery areas

We hire across Johannesburg, Sandton, Randburg and surrounding Gauteng suburbs. Delivery and collection fees depend on your venue address. Tell us your location when you request a quote.

- Johannesburg
- Sandton
- Randburg
- Fourways
- Midrand
- Roodepoort
- Bryanston
- Rosebank

Northcliff
Bedfordview

How booking works

1. Request a quote with your date, venue address and guest numbers.
2. Choose the hire package that suits your event, with extras if needed.
3. Confirm your date and receive booking details before delivery day.
4. We deliver, set up and test the equipment with you on site.
5. Enjoy your event while guests make the most of the hire.
6. We collect afterwards. No deep cleaning required from you.

Safety information

Slush machines are heavy, use refrigeration and electricity, and dispense icy liquid that can make floors slippery. These rules help you run a safe, cool drink station.

Essential safety rules

Place on a strong, flat, level table that does not wobble. The twin bowl machine is heavy when full.

Supervise young children when dispensing drinks.

Wipe spills promptly to prevent slippery floors.

Do not move the machine while bowls are full of liquid.

Follow instructions given on delivery before collection.

Weight and stability

A full slush machine is heavy. Use a catering table or strong trestle. Do not place on folding tables that flex or tip. Keep the machine level so mix freezes evenly and does not spill.

Slips and hygiene

Slush spills create slippery floors quickly, especially indoors.

Keep a cloth or mop nearby during busy serve periods.

Use the drip tray and empty it when needed.

Guests should hold cups with two hands if they are very young.

Electrical and refrigeration

Allow adequate ventilation around the machine.

Do not block air vents or place against a wall with no airflow.

If the machine stops freezing or makes loud noises, contact us before forcing continued use.

Never open internal panels or refrigeration components.

Weather policy and instructions

Slush machines are popular at summer outdoor events, but they still need dry electrics,

stable power and sensible placement in Johannesburg heat and sudden storms.

Ideal conditions

Hot dry days are perfect for slush - guests love icy drinks. Place the machine where adults can supervise self-serve and spills can be wiped quickly.

- Shaded spot outdoors or a cool indoor room

- Flat surface with ventilation around the unit

- Dedicated power point - avoid sharing with inflatables or DJ gear on one overloaded line

- Cup station on a table that will not wobble when leaned on

Rain and thunderstorms

Slush machines must not be used in rain or when lightning is nearby. Water and electrical components do not mix.

- Move the machine under cover before the first drops fall

- Unplug safely if a storm approaches - do not move a full bowl carelessly

- Wipe wet floors promptly to prevent slips around the serving area

- Contact us if your outdoor event may need to pause - we can advise on restart times

Extreme heat and sun

Direct midday sun on the machine cabinet makes the compressor work harder. The drinks stay cold, but shade extends performance and reduces strain on the hire unit.

- Use a gazebo, tree shade or patio cover

- Keep syrup bottles out of direct sun until needed

- Top up ice or allow freeze cycles as instructed on delivery

Indoor hires

Indoor school halls, churches and venues are largely unaffected by weather. Ensure doors near the machine are not left open in rain, and mop spills during busy serve periods.

Contact us as early as possible when weather may affect your hire. Your booking confirmation includes phone and message details for the day. We prioritise safe use of equipment and fair solutions for Johannesburg, Sandton and Randburg events.

Frequently asked questions

Q: How does slush machine hire work?

Pick Slush Starter, Slush Party or Slush Big Bash. We deliver the twin bowl machine with ready mix, cups and straws, walk you through setup, and collect when your hire ends. Slush machines are always delivered and collected by our team.

Q: What is included in a slush hire package?

The slush machine, ready mix concentrate, clear cups with straws and full day hire. Slush Starter from R 1 300, Slush Party from R 1 650, Slush Big Bash from R 2 000.

Q: How long before the slush is ready to serve?

Allow 90 to 120 minutes freeze time after setup before serving. We recommend switching the machine on early so it is icy when guests arrive.

Q: Can I have two different flavours?

Yes! Our twin bowl machine lets you run two flavours side by side. Popular combos include cherry and blue raspberry, or kids on one side and a cocktail slush on the other.

Q: Which slush flavours are available?

Cherry, blue raspberry, cola, grape, lemon, mango, strawberry, mixed fruit and more. Cocktail style flavours are available on request.

Q: Can I collect the slush machine myself?

No. Slush machines are delivered and collected by Panda Party Hire. They are heavy, need careful handling and we want everything set up correctly for you.

Q: Does the slush machine need electricity?

Yes. A standard power point is required. We confirm placement and cable routing on delivery.

Q: Can slush machines be used outdoors?

Yes in shade on hot days. Direct sun makes the machine work harder. See our weather tips on this page for summer parties.

Q: What if I need more slush than my pack includes?

Extra 10L mix bags are R 150 each. Tell us your expected crowd when booking and we will recommend the right package.

Q: Do I need to clean the machine?

No. We handle collection. You just keep serving while the party is on.

Q: Which areas do you deliver to?

Johannesburg, Sandton, Randburg and surrounding areas across Gauteng.

Q: How do I book?

Choose your package and Book now, or request a quote with your event date and address.

Equipment care on the day

We deliver clean, tested equipment and show you how to use it safely.

You do not need to deep clean or service the machine during hire.

Contact us on the day if anything does not work as expected.

Keep equipment in the agreed setup area ready for collection.

Switch off and secure equipment if weather makes use unsafe.

Often booked together

Customers often pair slush machine hire with: Popcorn Machine, Soft Serve Machine, Outdoor Cinema. Ask us about combo bookings when you quote.

Ready to book?

We deliver, set up, test with you and collect afterwards.
